

# Bermuda Horizon Profile

Simplistic beauty is defined by our DMC Bermuda Horizon profile. This horizontal roof and wall panel system features a 12" exposure and a dramatic shadow line that perfectly conveys the welcoming ambiance of Bermuda-style architecture. The shingle lapped interlocking seams not only provide aesthetic appeal, they deliver superior water-resistance on walls or roof applications with a slope as low as 4:12. Bermuda Horizon can be installed over vertical framing, thus eliminating the need for additional hat channel framing.
